

## GIVE HEALTH

**HEALTH CARE TO  
LEPERS' FAMILIES**  
Thayet Myo, Myanmar

The RNDM sisters provide food and lodging to the leper patients and their families. They live in a poor area away from town and marginalized from society. The sisters take care of their health and provide some basic needs. The RNDM sisters often visit their homes and give special care to the people who are not able to walk because of their age and disabilities. By providing them with food, blankets and other basic needs their health and hygienic conditions are improved.

€75

*Your gift will improve health conditions as well as personal well being of leper patients and their families.*

## GIVE LOVE AND CARE

**CARING FOR ORPHAN CHILDREN**  
Chittagong, Bangladesh

St. Benedict's crèche was established by Euphrasie Barbier more than 100 years ago for the care of poor and abandoned babies. Presently there are 40 children aged 0-6 years in the crèche. They are often found in front of our gate; many of them are left by single mothers who do not want to own and care for them. The sisters accept these babies, offer them a loving and secure home and provide them with basic needs.

€15

*Your gift will help to provide food, medicines, clothes, toys and education for the orphans and abandoned children.*

## GIVE HOPE

**FEEDING PROGRAM FOR INDIGENOUS CHILDREN**  
Minh Hung, Vietnam

Minh Hung Ethnic Children's Home was founded to house the indigenous children. They come from very poor families relying mainly on crops of cashew nuts giving fruits only 3-4 months per year. As a result these children are forced to drop school at an early age to help families to grow vegetables and other foods. The beneficiaries of this project are 68 children aged 6-16 who lack education and are victims of child labour. The RNDM sisters teach them the basic skills, catechism, human values and tutor them to keep up their school subjects.

€25

*Your gift will contribute to the human and intellectual development of these children and reduce child labour.*

## GIVE EDUCATION

**NUTRITION AND EDUCATION FOR GOLLA CHILDREN**  
Almel, India South

Almel is a rural village in North Karnataka where infant and maternal mortality rates are very high. The sisters started this project in 1997 for the low caste children who do not enjoy childhood as they are obliged to support their families either grazing cattle or looking after their younger siblings. The project will reach out to 30 children who will be provided with nutritious food, medical care and education. This will be inspirational to their siblings and parents and will help to reduce child labour and child marriage.

€50

*Your gift will give a brighter future to 30 young children through education, food and medical care.*
