Care for Common Home Newsletter RNDM

The purpose of this newsletter is to provide news of RNDM involvement in actions and activities related to our ministry of Caring for Our Common Home.

Good news from Latin America

The hymn of St. Francis invites us to contemplate creation with hope in a reality where we lack water, trees and agriculture. Green spaces and trees that are growing are a sign of hope for the care of our common home.

Planet vs. Plastics, Laudate Si's call for solidarity to work with other groups that try to carry out activities to reduce plastics and educate to take care of the space where we live.

In Ilo we work in collaboration with the team of the Environmental Care Office. (Municipality)

On April 22 with some young people and workers from the Environmental Care Office we collected plastic and bottles from the beaches near the port of Ilo I had a radio interview to communicate to the population about recycling in the home.

June 5th World Environment Day

On June 5 Elsie RNDM accompanied the march with the schools whose students marched wearing plastic dresses and carrying banners. We continue to work with other groups and with our RNDM communities.

**In Laudate Deum, Pope Francis reiterates:
"I repeat over and over again: 'Everything is connected' and 'No one is saved alone.'" LD 19**
