Care for Our Common Home

RNDM News

The purpose of this newsletter is to provide news of RNDM involvement in actions and activities related to our ministry of Caring for Our Common Home.

Good news story from Senegal

Life is hidden for ten months under the earth, covered with sand under the scorching heat of the sun. No one would ever think that there is life and anything could come from it? Nature teaches us how to be patient, as there is a time for everything.

A miracle took place with drops of rains. All lives that were hidden for 10 months are waking up—both plants and all type of insects.

It's just wonderful.

The sisters, benefit well from the mother Earth, enjoy eating the fresh and bio green vegetables both wild and domestic which grow everywhere in the garden. We wish it would last longer.

The evening is set aside for gardening. We love doing it, as it gives us energy and refreshes both mind and spirit.
